1. Accessing the Booking Service

Link to the Janet videoconferencing booking service [1].

Registered users can book or launch videoconferences and view the details of videoconferencing facilities at any of the Janet Videoconferencing registered organisations.

If you not yet registered (and you think you are eligible), you can create a user account. **More information about eligibility to use the service can be found in the Janet library** [2].

Once logged on, users are taken to the Janet Videoconferencing Booking Service home page as shown here:
