

Janet Mail Services

Services

The services can help make the mail facilities of Janet organisations more secure and robust. Janet also hosts several leading DNS blocklists and whitelists which can help to protect users from email abuse.

- [Spam-relay Tester And Notification system](#) ^[2]

Advice

Janet customer organisations are expected to operate their own local mail services. We provide advice and guidance to organisations on the use of Internet mail, and on the configuration and operation of mail systems.
