

Glycoscience

Group:

The Euroglycoforum is a network of European Glycoscientists with the aim of promoting all aspects of Glycoscience

We seek to improve training and knowledge of glycoscience at all levels by providing information about and

financial support for courses, workshops and summer schools

We represent all areas of glycoscience

We are looking to improve the visibility of Glycoscience and enhance its impact on society

We represent all aspects of Glycoscience throughout Europe

Established comprehensive multi-disciplinary trans-European network to collaborate on research projects

Providing support for training and education on Glycoscience

Identified European strengths in glycoscience

and also Centres of Excellence for training and research
