

Janet Reach

The Scheme

If you are interested in taking advantage of the Janet Reach scheme, further details can be found in the Guidance for Applicants document, which sets out the broad expectations and criteria which projects would need to satisfy to be successful.

To make an application to the scheme, you will need to request a form and an accompanying finance spreadsheet which will need to be completed by the project partners. You are strongly recommended to have an informal discussion with one of the scheme specialists prior to making your submission.
