

The safe share project

Group:

This is an open group for background information and updates on the Jisc funded safe share project working with partners in the Farr Institute, Medical Bioinformatics initiative and Administrative Data Research Network (ADRN).

There are two project streams:

- Higher assurance network (HAN) project
- Authentication, Authorisation and Accounting Infrastructure (AAAI) project

December 2016 Update:

Jisc have agreed to take forward the safe share higher assurance network (HAN) stream to run as a service from Spring 2017.
