Example application

ac.uk requests - It is preferred that all requests are made through the Domain Registry Service Portal [1]. Requests for portal username and login details can be submitted to domains@jisc.ac.uk [2]

Alternatively, registrars can submit manual requests via email to - domains@jisc.ac.uk [2]

Example application

Business University Limited is a for-profit provider of higher education. They have a permanent physical presence in the UK, with the core purpose of providing high quality higher education. They recently received course level designation for a BSc(Hons) in Business Management for the purpose of student support and they are on the Register [3] of designated higher education providers held by the Higher Education Funding Council for England. They applied to Example Registrar Ltd (Registrar registered with Jisc) for the domain name www.businessuniversity.ac.uk [4]. They provided details of precisely how their name met the Jisc eligibility policy [5] with the relevant fees for application and any other appropriate webhosting charges. Jisc's naming committee approved the application and Business University Limited was able to migrate to the new domain. Requests for further domain names, modifications and renewals were obtained from their Registrar, Example Registrar Ltd.
