Counter-Terrorism and Security Act 2015

Andrew Cormack, Chief Regulatory Adviser, @Janet_LegReg

» More data added to DRIPA2015 list

  › Essentially DHCP & NAT logs

» Only applies to public communications providers

  › Not Janet

  › Not universities, unless you offer public access

» Only applies when notified by Home Office

"due regard for need to prevent people being drawn into terrorism"

» Guidance published: HE&FE required to "have regard" to that

» "should not add large/significant new burdens" to institutions

» Update policies/processes

› Safety, welfare, staff training, visitors, whistle-blowers, AUP

» Technology? Seems to say…

› If you filter harmful content, consider adding this

› But if not appropriate for that, not for this either

» Main concern: avoid false positives!

» If conducting legitimate research/study in these areas

› Know where it is

› Conduct it safely

› See existing UUK guidance

https://www.gov.uk/government/publications/prevent-duty-guidance

» Guidance builds on existing policies, processes, etc.

  › Recognises existing good practice (e.g. safecampuses)

  › Jisc developing on-line staff Awareness training
    — Working with AoC/BIS

» No expectation of new technical "solutions"

» Duty in force for everything **but** HE/FE on 1st July 2015
