II.1.3) Information about a framework agreement or a dynamic purchasing system (DPS)

The notice involves the establishment of a framework agreement

II.1.4) Short description of the contract or purchase(s)

Jisc Services Ltd wishes to establish a multi-supplier framework agreement to replace the existing multi-supplier framework to enable Jisc Services Ltd and other scoped organisations to purchase routing and switching equipment plus any required support services.

The scope of the framework covers purchases by Jisc Services Ltd, Higher Education institutions, Further Education and Specialist Colleges and Research Council establishments in the UK, Regional Network Operators (RNOs) and by any other bodies whose core purpose is the support or advancement of further or higher education or of research.

Many of the above bodies are members of higher and further education purchasing consortia. These are independent organisations that provide a wide range of collaborative purchase agreements to their member institutions through consensus and the common desire to maximise their purchasing power in the market place. Any member of one of these consortia will be eligible to purchase from this framework by virtue of its membership, as will members of any other similar purchasing consortium in higher or further education that might be formed during the lifetime of the Service.

Membership lists for existing higher and further education purchasing consortia may be found at:
