

N3 JANET Gateways Update ...again

NHS-HE Forum

19th May 2010

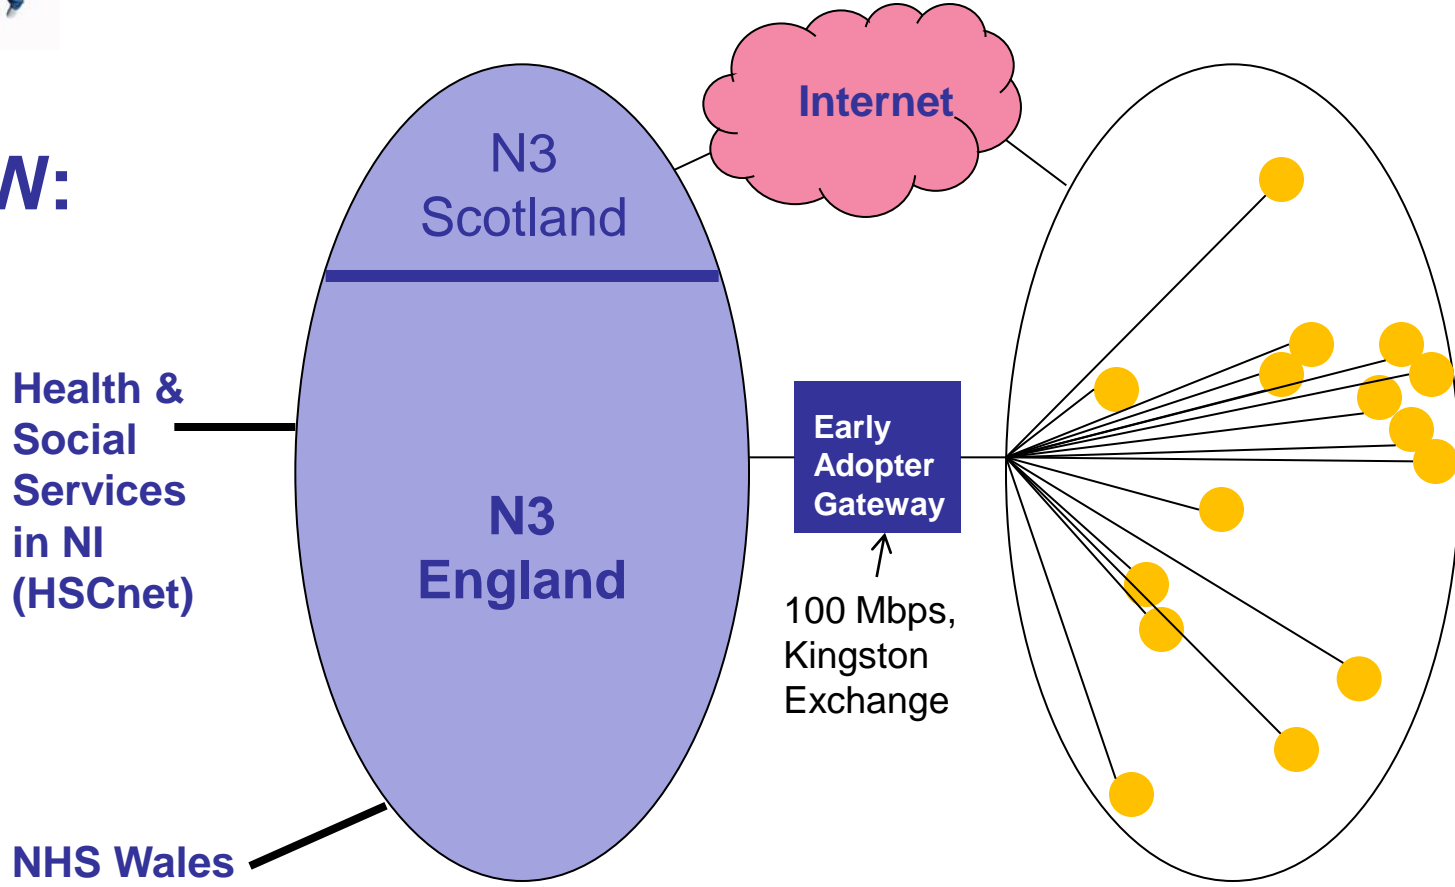

Malcolm Teague, JANET(UK)
Malcolm.Teague@ja.net

N3 for NHS network in England and Scotland, JANET for Education & Research

NOW:

(PSBA)

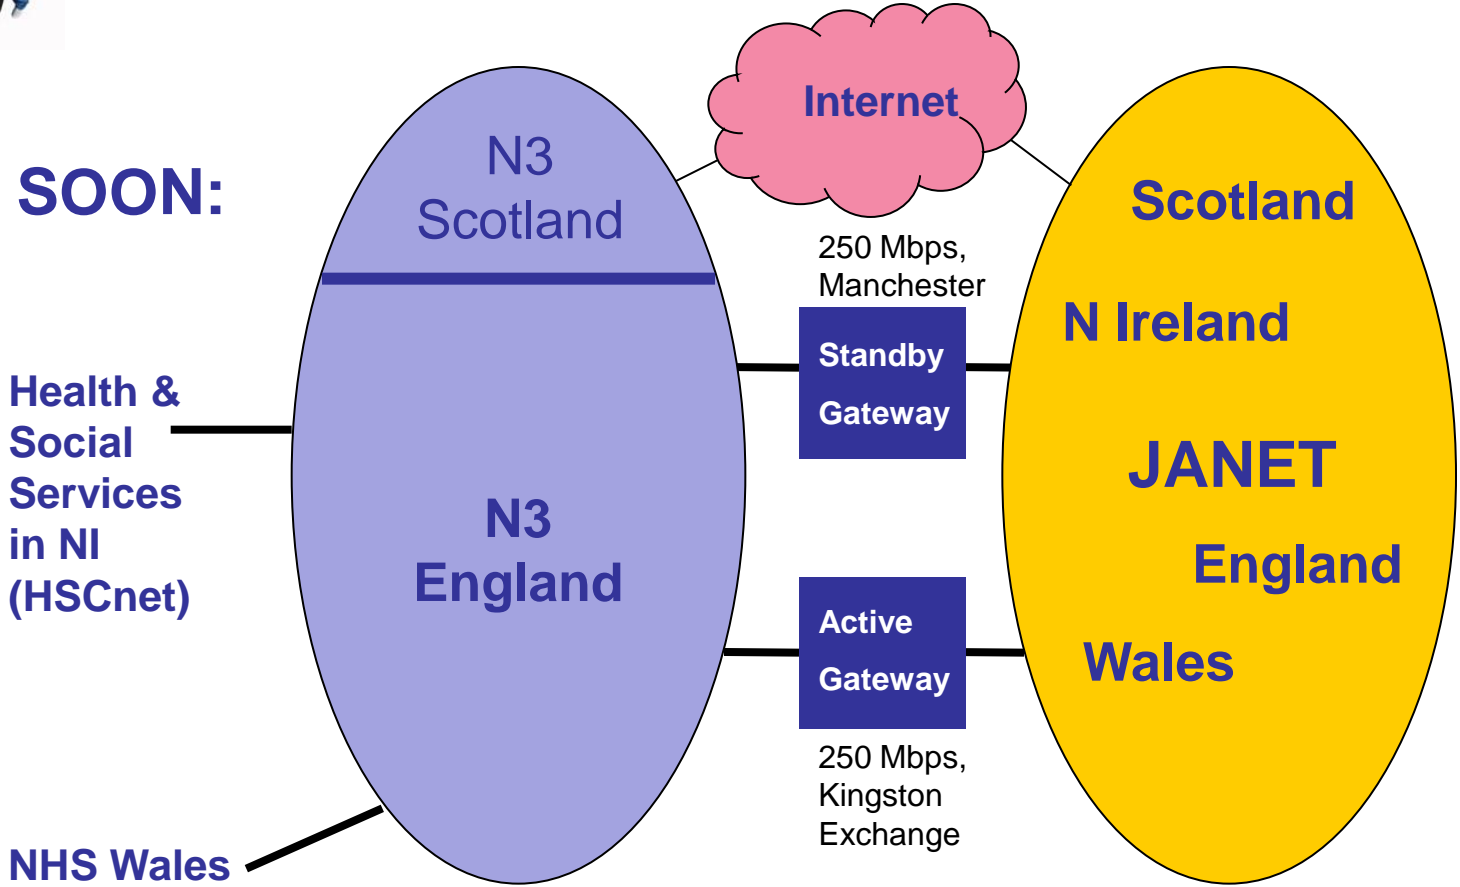

Sessions initiated in N3, "Any N3" through "Any port" but to early adopter IP addresses only

N3 for NHS network in England and Scotland, JANET for Education & Research

VERY SOON:

Health & Social Services in NI (HSCnet)

NHS Wales

(PSBA)

The New N3 Gateway(s)

- The new N3 JANET Gateway Service is being implemented:
 - Very soon = 21st May? or 1st week of June
 - 2 Gateways at 250 Mbps active/standby
 - Joint funded with DH/Connecting for Health
 - All N3 JANET traffic (sessions initiated in N3, routed away from internet G/way)
 - Contract for 5 years
 - Full service management by N3

And so.....

- Early adopter will carry on until the new Gateway takes over (routing switch handled centrally)
- PIDs to be started in June for follow-on projects:
 - strategic videoconferencing solutions e.g.
 - Interface new N3 vc service with JVCS?
 - IOCOM/Access Grid solution?
 - “sessions initiated in JANET”

Now: Sessions initiated in N3

Sessions initiated in:

	N3	JANET	
No PID	Now Eg access to VLEs	Investigating: Eg NHS intranets	New PID on sessions initiated in JANET
PID	Eg collecting research data	Access to NHS clinical systems
