

Data Security and Protection Toolkit update

Information and technology
for better health and care

Presented by: **John Hodson**
NHS Digital

This is what we have been doing since summer

- Further development of the prototype of the Data Security and Protection Toolkit, particularly the flow
- Testing, User research and engagement events covering monthly webinars, Developing guidance
- Working with key bodies (DH, DARS, ICO, NCSC, NHS England etc.,)

Development Update

- Re-design on Assertions page and Start page much more like a standard Government website
- Assign Owners to assertions
- Publish a Submission
- Organisation Profile
 - NHS Mail
 - Cyber Essentials
 - PSN

Assertions and Evidence items

- Draft Assertion and Evidence Items now available <https://uat.igt.hscic.gov.uk/CCA/StaticContent/News>
- Responded to initial comments
- Additional Assertions added for GDPR
- **We want your help** on the wording and especially the grey text giving further information about the evidence item

Areas where we need help

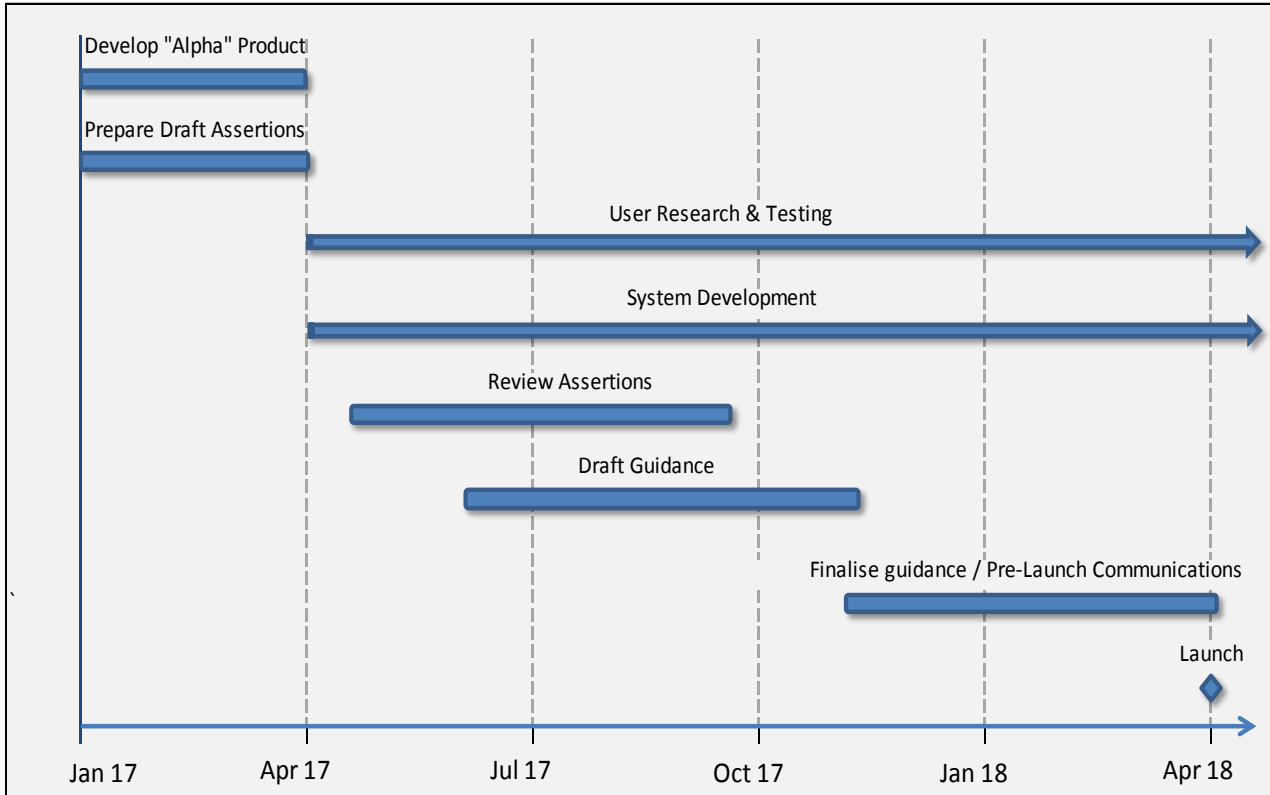

- FAQ document
- Guidance a few volunteers to look at guidance Darren.mort@nhs.net
- Wording and Concise guidance feedback
- News Page on the Prototype
- Publicise Webinar 30th November 12.30

We need to make sure
the language used works
for everyone

This care home has more
dogs than computers

Re-Designed IG Toolkit Plan
