

*Video Conferencing:
A regional collaboration between
NHS and HE*

Lesley Scott
CETL4HealthNE

Overview of Session

- What is CETL4healthNE
- Why video conferencing?
- Where are we now?
- Integration into healthcare education

Centre for Excellence in Healthcare Professional Education in the NE

CETL4HealthNE Aim:

To foster curriculum development for employability in the modernised health care service

Work groups:

- **Inter-professional education**
- **People with Experience: User Involvement**
- **Peer Group Learning**
- **Practice Based Approaches to Learning**
- **Healthcare and Higher Education Challenges**
- **Learning Technologies**
- **Evaluation**

Enabling Teaching and Learning Strategy : The Vision

Improved communications infrastructure for healthcare students and teachers:

- High Bandwidth academic network connections to at least 8 clinical teaching sites
- Videoconference systems (fixed and mobile) at academic and clinical teaching sites (IP not ISDN)

Enabling Teaching and Learning Strategy : The Vision 2

- NHS-HE Forum Leeds, May 2006
- CETL4HealthNE contributed to N3-JANET Gateway
- Stage 1 – part of Early Adopter Group
- Stage 2 – Multipoint Videoconferencing via JANET Videoconferencing System (JVCS)
