Done mbbs.ncl.ac.uk

Systems using Shib/CAS (or about to)

The screenshot shows a web browser window titled "Welcome to the Learning Support Environment - Mozilla Firefox". The address bar shows "https://mbbs.ncl.ac.uk/authenticated". The page header includes the "bruno" logo and navigation links for "Home", "Help", and "Login". Below the header, there are tabs for "Welcome to Bruno" and "IAMSECT Project Info".

The main content area is divided into several sections:

- Links:** A sidebar section with a "duo" logo and text explaining that the user is looking at Bruno, one of the University of Durham's Blackboard™ servers. It notes that Bruno is a development server with restricted access and provides information about the production server "duo".
- Welcome to Bruno:** A central section containing a "Login Here" form with fields for "USERNAME:" and "PASSWORD:", and a "Login" button. Below the form are sections for "Acceptable Usage" (with a link to "Regulations for the use of IT Facilities") and "Who's Online Module" showing "Usage for Mar-10-2005 15:52:51.935" and "Total users in last minute 1".
- Weather across Campus:** A section with two live webcam images. The first is "Durham" showing Durham Cathedral, with a timestamp of "Sun, Mar 13 - 15:52:51 2005" and a link to "Five-day weather forecast for Durham from the BBC". The second is "Queen's Campus, Stockton" showing the Transporter Bridge, with a timestamp of "Sun, Mar 13 - 15:45:18 2005" and a link to "Five-day weather forecast for Stockton from the BBC".

The browser's status bar at the bottom shows "Done" and the URL "mbbs.ncl.ac.uk".

Systems using Shib/CAS (or about to)

The screenshot shows two browser windows. The top window is titled "Welcome to the Learning Support Environment - Mozilla Firefox" and displays the URL "https://mbbs.ncl.ac.uk/authenticated". The bottom window is titled "Medsas at Newcastle - Mozilla Firefox" and displays the URL "https://medsas.ncl.ac.uk/mbbs/base/welcome/index_html". The website header includes the "MEDSAS" logo and the text "Medical Student Administration System". A navigation bar shows "Welcome" and "you are not currently logged in > login".

The main content area is titled "Welcome to Medsas" and includes the text: "This site provides access to secure services and reports for students and staff and supports distributed management of student information".

A diagram titled "Distributed delivery of learning" illustrates the structure. At the top is a central blue circle labeled "Collaborative Educational Resource Centers". Arrows point from this center to five purple circles labeled "Base Unit". Below these, a larger purple circle labeled "Base Unit Constituents" contains several smaller circles: "PCT", "MHT", "AHT", "PCT", "PCT", "COM", and "PCT".

Key:
AHT : Acute Hospital NHS Trust
PCT : Primary Care NHS Trust
MHT : Mental Health NHS Trust
Com : Other community and voluntary organisations

At the bottom of the page, it states: "This site is Copyright © 2000-2004 by Newcastle University".

Managed Environments for Portfolio-based Reflective Learning
Integrated Support for Evidencing Outcomes

Welcome

Recent Additions to this Website

- Download the Project Report for the FDTL ePortfolios project.
- Sharon Hamilton's Presentation
- JISC funded Regional ePortfolio Collaboration (EPICS)
- Papers and presentation from ePortfolio 2004
- JISC funded ePortfolio Extensions Toolkit (ePET) project.
- ePortfolio demonstrator

This site includes information about our **FDL4** and related ePortfolio projects. It also aims to provide a community resource for those interested in ePortfolios and Personal Development Planning (**PDP**). Your comments or suggestions for the Web site would be most welcome.

Overview

Our FDTL4 ePortfolios project builds on previous experience of developing electronic support for PDP. This is a 3 year collaborative project involving the Universities of Newcastle (lead site), Leeds, Sheffield and Dundee. The 'generic' ePortfolio developed as part of the FDTL4 project has been applied in a number of different settings. A new JISC funded ePET project is adding 'Web services' functionality to this ePortfolio.

Acknowledgments

We would like to thank the following:

- hefce** HEFCE for funding through the FDTL programme.
- The Higher Education Academy** The National Co-ordination Team of the HE Academy

Around the Faculty

Students walking through the university arches close to the Student Union buildings.

Welcome to the Faculty of Medical Sciences

We are an exciting multidisciplinary faculty with an international reputation for our work. We gained grade 5 and 5* scores for all areas of our research in the [2001 Research Assessment Exercise \(RAE\)](#), and gained a result of 143/144 for our teaching quality assessment.

Our schools and research centres offer a unique spread of subjects in a multidisciplinary environment, particularly appropriate for:

- the provision of teaching for Medical Sciences
- the pursuit of excellence in research

Here you can find out more about:

- [our transforming health agenda](#)
- information about our facilities
- our [research](#)
- [undergraduate](#) and [postgraduate](#) programmes - both taught and research degrees
- opportunities for continuing professional development
- how to [contact us](#)

You can also find more information about specific subject areas by going to the [individual school sites](#).
