“The video conference was fantastic. It was a brilliant experience for everyone. There was lots of information and it was an amazing day”

Anthony Horowitz Plan B!

Em Carpenter 6M Fairlop Primary

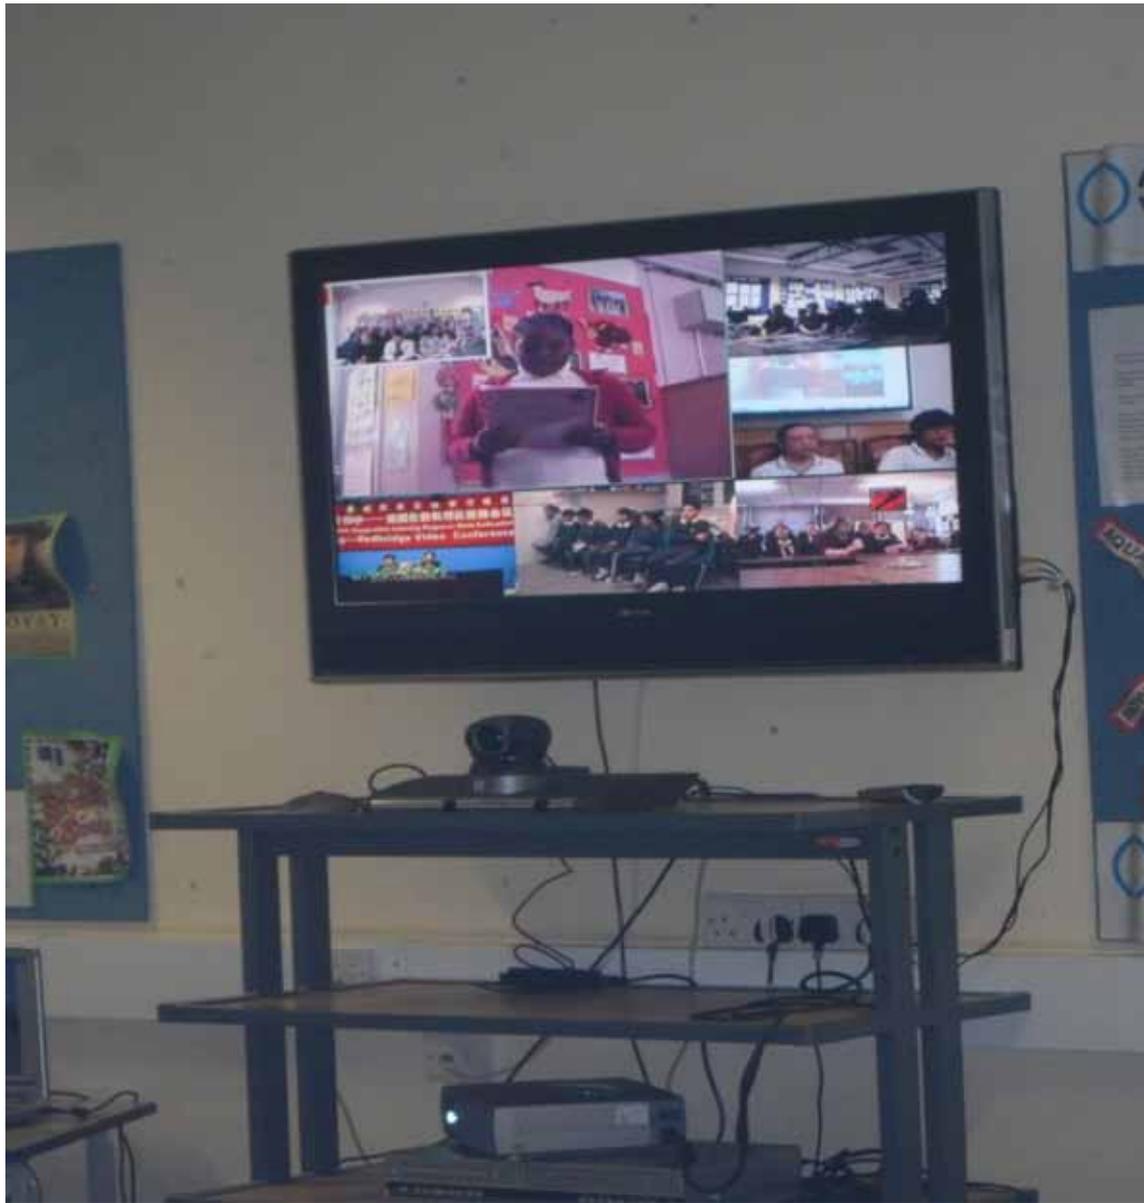

It was great. I especially enjoyed it because it was like an autobiography aloud . I found out something very strange about Anthony. He hated his Grandmother. I love my Nan but he hated his and he wrote the story “Granny” about her. If you want to become an author when you are older and you want to write about a family member, make sure they have passed away first!”

'I thought your students contributed extremely well'. Students were thoughtful in their preparation, questioning and responses.

hour long debate on ethical standards in companies and how best to develop fairer ways to conduct business

Teaching Via Video Conference

“The course is very enjoyable and I learn a lot through it. A particular reason for this is that we have a highly skilled teacher via the video camera who is very helpful and breaks down the course for us, so we learn to the best of our ability. The teacher has given me a lot of support and encouragement so that I have high self-confidence in a subject I have never taken before. This has helped me to obtain a grade B in my first unit which I hope to push up to an overall A in the second unit this summer.”

What's next?

- More international links
- Linking more authors and speakers to other schools and organisations.
- Year council meetings
- Regular debates with schools both in the UK and international
- Offering more lessons via VC
